A photograph of a small, irregularly shaped, light brown object, possibly a piece of wood or bone, with the handwritten text "J. M. J. J. J. J." and "L. J. J. J. J." inscribed on its surface. The object is resting on a wooden surface against a light-colored background.

A photograph of three pieces of pottery arranged on a light-colored, textured surface. On the left is a small mug with a handle, featuring a light-colored glaze with dark, horizontal streaks. To its right is a small bowl, also with a light-colored glaze and dark, horizontal streaks. In front of the bowl is a small, shallow lid with a central knob, matching the same glaze and streak pattern. The pottery appears to be made of a light-colored clay or ceramic, possibly stoneware or earthenware, and the glaze is a light, mottled color with dark, horizontal streaks or bands of a darker material.
